

ADVANTAGES OVER BRACES

While the results may appear the same - a confident, beautiful smile. When you stop and **actually compare Invisalign®** to other teeth-straightening options, **the advantages become quite apparent.** Knowing the pros ahead of time will help you make a more confident decision.

This is what Invisalign® does for you:

- Effectively treats a wide variety of cases, including crowding, spacing, crossbite, overbite and underbite.
- Straightens your teeth.
- Allows you to eat whatever foods you enjoy.
- Lets you remove the device when you want.
- Lets you enjoy virtually invisible teeth-straightening.
- Lets you whiten your teeth while correcting your smile*.
- Allows you to brush and floss your teeth normally for better periodontal health.
- Consists of smooth, comfortable plastic instead of sharp metal that is more likely to irritate your cheeks and gums.
- Frees up your busy schedule, with office visits only every four to six weeks.

Use a whitening gel while wearing your trays.*

Healthy straight teeth not only offer you a **BEAUTIFUL SMILE!**

They keep you from developing periodontal gum disease!
