

Relaxing during your dental procedure?

*Absolutely!*

**Ask about NuCalm during your next dental appointment!  
Complimentary Service - Value of \$87**

---

**NuCalm** is serving people across the globe with a singular purpose, to lower stress and improve sleep quality without the use of drugs.

**NuCalm** rapidly, safely, and predictably creates deep relaxation by mimicking patterns our brains recognize to help it relax. The technology works naturally with the two channels of communication in the body - biochemical and electrical.

When you are in a deeply relaxed state, your body can heal and recover.

The immediate health benefits of **NuCalm** include:

- Lowered stress (cortisol production)
- Improved sleep quality
- Improved immune system, heart health, and respiratory health
- Improve attention and memory
- Normalize circadian rhythms
- Enhance creativity and focus

*Treat yourself to this all natural relaxation technology!*
